DASH

BRAND GUIDELINES

INTRODUCTION

Welcome to the Dash Brand Guidelines. This document serves as the definitive guide for all brand communications, visual identity applications, and messaging standards for Dash - India's fastest consumer electronics delivery service.

These guidelines ensure consistency across all touchpoints, from digital platforms to physical packaging, helping us build a strong, recognizable, and trustworthy brand that resonates with our customers.

Electronics in 10 minutes

The Dash logo features the word "DASH" in a bold, dark grey, sans-serif font. To the left of the letter "D" are two horizontal orange bars of equal length, stacked vertically.

5.0 Brand Application

About the brand - Dash is India's first ultra-fast consumer electronics delivery service, revolutionizing how Indians access their everyday tech essentials.

Our aim is to make tech emergencies obsolete.

Our vision is to become India's most trusted instant electronics partner, present in every neighborhood, powering every moment.

BRAND VALUES

SPEED

Speed is in our DNA. We don't just deliver fast; we respect that our customers' time is precious. From app loading times to delivery execution, we're obsessed with eliminating friction and wasting zero seconds.

RELIABILITY

We do what we say. Every time. Our customers depend on us in moments of need, and we never let them down. Reliability means consistent quality, honest communication, and unwavering commitment to our promises.

INNOVATION

We embrace technology and creativity to solve problems. From logistics algorithms to customer experience design, we constantly innovate to make tech access easier, faster, and better.

ACCESSIBILITY

We believe everyone deserves instant access to quality electronics, regardless of location or background. We're building inclusive infrastructure that serves all of urban India.

TONE OF VOICE

FAST & CONCISE

We respect people's time. Keep it brief, punchy, and to the point.

CONFIDENT & CAPABLE

We know what we're doing. We don't oversell, but we don't undersell either.

FRIENDLY & HUMAN

We're approachable, not corporate. We speak like a helpful friend, not a faceless company.

SIMPLE & CLEAR

No jargon, no confusion. Everyone should understand us, regardless of tech knowledge.

LOGO DESIGN

- 2.1 Logomark
- 2.2 Logotype & Lockup
- 2.3 Clear space
- 2.4 Minimum sizes
- 2.5 Placement

LOGOMARK

The icon includes a forward-moving dash, representing speed and electronics. It serves as a standalone element for app icons and social profiles.

LOGOTYPE

The wordmark “DASH” uses bold, geometric typography with condensed letterforms that visually express movement and urgency.

DASH

LOGO LOCKUP

The horizontal lockup is the primary format for most applications. Alternate icon-only versions can be used in limited spaces.

CLEAR SPACE

Maintain a clear space around the logo. This ensures visibility and prevents visual clutter.

MINIMUM SIZES

The version is optimized for sizes that are not excessively small. It mandates a minimum height of .72" for print applications and a minimum of 50px for digital applications, ensuring legibility and clarity even at larger dimensions.

The image shows the 'DASH' logo in a bold, italicized sans-serif font. The 'D' is stylized with a horizontal bar extending to the left. To the right of the logo is a vertical double-headed arrow indicating the minimum height. Next to the arrow is the text '.75" or 50px'.

DASH | .75" or 50px

PLACEMENT

- Always place the logo on clean, uncluttered backgrounds.
- Use contrasting backgrounds for maximum legibility.
- For colored backgrounds, use the white or monochrome logo version.
- Centered or top-left placements are preferred for digital and print formats.
